EDUCATION

CUNY Bronx Community College — Bronx, NY

Expected Graduation: Fall 2026

Associate in Applied Science, Computer Information Systems

- **Relevant Coursework:** Server-Side Programming, Client-Side Programming, Introduction to Business Fundamentals, Web Programming in Python, Java Programming, Linux Operating.
- **GPA:** 3.0/4.0

CERTIFICATIONS

CompTIA A+ V14 (220-1101 and 220-1102)

Virtual *Helpdesk Support Specialist*

Summer 2024

- **Hardware:** Installing and configuring Desktop hardware like HDD/SSD, RAM, and wireless cards; Setting up accessories such as USB, Bluetooth, configuring network connectivity options, including WIFI, Bluetooth, and mobile data synchronization, including hardware failures and connectivity problems.
- **Networking:** Comparing and contrasting TCP and UDP protocols; Exploring the roles and functionalities of routers, switches, and firewalls; understanding wireless networking standards like 802.11.
- **Introduction To Cloud Models:** learning about IaaS, PaaS, and SaaS.

W3Schools Certified Python Developer

Virtual *Python Developer*

Spring 2024

- Demonstrated proficiency in Python programming fundamentals, including variables, data types, operators, and control flow.
- Developed skills in working with data structures such as lists, dictionaries, tuples, and sets.
- Solved coding challenges and practical exercises to reinforce problem-solving and logical thinking skills.

PROFESSIONAL EXPERIENCE

Amazon, Inc.

Bronx, New York *Summer Research Assistant*

Winter 2020 - Winter 2022

- Used Amazon's proprietary software, Amazon Flex Delivery, to access and complete over 200. package deliveries each day across the Bronx and Yonkers.
- Provided exceptional customer service on travel routes, completing 100% of assigned deliveries.
- Completed daily data entries into the Amazon Freight Delivery, navigating software delays and changes.

General Assembly, Inc.

Virtual *Software Engineer Apprenticeship*

Spring 2025 – Summer 2025

- Completed the in-person Software Engineering Immersive Program at General Assembly, gaining practical experience in full-stack web development using modern technologies and frameworks.
- Built dynamic and responsive user interfaces with HTML, CSS, and JavaScript, and developed interactive single-page applications using React.js with reusable components.
- Created and maintained back-end functionality using Python, Django.
- Worked with both MongoDB and PostgreSQL to design, manage, and query structured and unstructured database schemas.
- Managed project responsibilities and team collaboration in Trello, GitHub, and Slack.

PPL, Inc.

Bronx, New York *Personal Assistant*

Winter 2024 - Present

- Utilize medical software to track and document changes in patient health and vitals.
- Listed and managed daily activities in Time Care, coordinating care for patients daily.

PROJECTS

Traditional Dominican Dessert, Technology: MERN STACK

Spring 2025

- Utilized a MERN stack (MongoDB, Express, React.js, Node.js) to build a full stack application in 8 weeks. With full create, read, update, delete (CRUD) operations hitting all RESTful API calls.
- Created application with a mobile-first approach and styled the application using Styled-Components and CSS3 with flexbox inked layouts.

Vet Connect, Technology: Django, Python, SQL.

- Built and deployed a full-stack Django and PostgreSQL web application in 4 weeks with Heroku deployment, enabling users to book veterinary appointments.
- Developed a collaborative project with Django and PostgreSQL, contributing to both front-end development (HTML, CSS, Bootstrap) and backend database design.

Language Quiz, Technology: Typescript, React, Bootstrap, CSS.

- This is an interactive quiz game with React and TypeScript, featuring multiple-choice translation questions.
- Designed a responsive UI with Bootstrap 5, Flexbox, and custom CSS, ensuring seamless play across devices.
- Implemented start, play, and restart functionality for smooth game flow.

SKILLS AND INTERESTS

- **Technical Skills:** HTML, CSS, JavaScript, React.js, Django, Python, MongoDB, PostgreSQL, Heroku, Vercel, Netlify, GitHub, Trello, Jira, Postman (API testing), Microsoft Word, Excel, PowerPoint.
- **Languages:** English, Spanish.
